

MEMORANDUM FOR THE RECORD

1. At the Deputies' Meeting on 29 July 1960, the Director stated that Ambassador Bohlen is crusading to do away with the term "international communism" (since Khrushchev has turned it around to suit his own purposes) and come up with something different that "has a snarl in it." The Director said Mr. Bohlen had asked us for any suggestions.

2. Colonel White reported that the Bureau of the Budget had approved our proposed separation program provided that no more than 250 employees are selected out under its provisions during Fiscal Year 1961 and Fiscal Year 1962, and no more than fifty per year thereafter. After some discussion, this was agreed to. Action: DD/S
